

Emerging & Maintaining Skills HOME COMMUNICATION SHEET

STUDENT NAME

DATE

INSTRUCTOR

The ARIS Program we use at school with your student provides a special form to track new skills your student is working on. ARIS separates Skills from Vocabulary and from Communication. Examples of Skills-Based Lessons in ARIS include:

- Imitating Actions & Speech
- Understanding Event Order
- Self-Help Skills
- Functional Use of Objects
- Following Commands
- Understanding Order
- Fine & Gross Motor Skills
- Counting & Math
- Sorting & Classifying
- Drawing, Coloring & Writing
- Play Skills
- Reading

The information on this sheet is intended to let you know what skills your student is working on in class, give you the details you need to practice these skills at home, and let you know at what level your student is progressing, so you can match these expectations.

The bottom portion of the sheet is designed for you to fill out and send back to let us know how your student is doing at home with the skills you are practicing.

SKILL	COMMAND & RESPONSE	NOTES
