

STUDENT'S NAME _____

DATE _____

INSTRUCTOR _____

Record Known Preferences

Preferred Foods	Preferred Drinks	Preferred Toys	Preferred Physical	Preferred Verbal

Negative Foods	Negative Drinks	Negative Toys	Negative Physical	Negative Verbal

Record qualitative data on the rapport between student and instructor, on how well the student associates the instructor with positive reinforcement, and on the student's reactions to specific edible, physical and verbal reinforcement. In the Food/Drinks and the Toys section, write in the items presented in the order they were from the student's perspective, left to right. Then record the order chosen in the boxes. This will help you determine which reinforcers the student prefers and will make it easier to notice if the student is just selecting a certain position rather than attending to the reinforcer. For example, always choosing the item on the right, regardless of preference.

Example: #1 gold fish crackers raisins gummy bears popcorn M&M's
